I'm a 21-year-old Graphic Designer, Front-End Developer, and UI/UX Designer. I am currently a third-year student, I study Electronic Business and Software Engineering. I completed my high school education at the Ruđer Bošković Technical School and Natural Science High School in Osijek, majoring in Graphic Design - Editor and Designer. Very communicative person, ambitious, selfinitiative. I have experience with HTML, CSS, JavaScript, React.JS, Tailwind CSS, Next.JS and databases like MongoDB. Love to work in teams.

PERSONAL PROJECTS

Print Alfa Web Shop

Full Stack Web Application

Web shop with admin and frontend page. In admin page you can add products, categories, delete products, edit products, view all your orders and delete it. Frontend part of project is modern responsive page. Modern UI/UX design.

Technologies which are used in projects are: Next.js, MongoDB, Tailwind CSS, NextAuth.js for backend, React, Tailwind CSS and Styled Components for frontend. Figma and Photoshop was used for UI/UX design.

House renting - Website
